Russey, Miss Naughton, in Cambridge, a friend of
 mine, and a very good place in view to board, with
 a Mrs. Billings, in working distance of Russey. She
 will have come roots in the soil when you arrive
 on the scene. If you write him at 23 East Water Street
 the letter will surely find him.

Last evening, Margaret, John, Stanley and I went to the
 Chicago Beach to see the fireworks with Grandma. They were
 fine but the children have been spoiled by the World's Fair
 and the Buffalo Exposition and thought them flat. I was
 dreadfully homesick for you.
 Mr. Hamilton was operated for appendicitis yesterday
 very successfully. Mrs. Hamilton came to see; and I had
 Myrup come to see him. Alice stays at the hospital with
 her. They expect to move her to Dr. Farren a week from now.
