## GARY DENOUNCED UNDER PROTEST.

## Trade and Labor Assembly Passes Some Kavanugh Resolutions.

Contrary to the wish of Fresident Lineban of the Trade and Labor Assembly that body yesterday adopted resolutions violently deneuronical Judge Garry. Mr. Lineban protested against the introduction of the resolutions on the ground label it was an attempt by interested politicistna to capture the assemby. Ho said ho himself would vote against Judge Garry, but as President of the assembly it was hid aduy to uphold how constitution. Ho close of the meeting, and it was necepted, although with much regret.

The resolutions were sprung uunexpectedly on the meeting. They were introduced by Mrs. Kate Kavanagh, one of the factory inspectors appointed by Gov, Altgeld. When President Linchan declared them out of ordor an appeal from the decision was taken. but the meeting upheld his ruling. Then the resolutions were referred to the Committee on Resolutions, who knocked out the preamble and substituted for it a letter by Henry D. Lloyd, which, under the title of "An Exposure of Judge Gary," has been circulated largely during the campaign. The resolutions, as amended, were carried. Great excitement and disorder prevailed during the whole "Tommy" Morgan made discussion. a characteristically violent speech in support of the resolutions, and when they were carried offered to bear the whole cost of publication. This was because a considerable section of the delegates present objected to have the funds af the assembly depleted by the expense of printing the 50,000 copies ordered to be circulated by the meeting. Whether Gov. Altgeld will permit Mr. Morgan to burden himself with all this expense must necessarily remain a state secret. It is thought by many it is an occasion for doing good by stealth, with adequate precautions against having to blush to find it fume.
